

APPENDIX B

TECHNICAL SPECIFICATIONS

LICENSE RENEWAL APPLICATION
OF
FACILITY LICENSE R-23
DOCKET# 50-59
AGN201M (serial#106)

TEXAS A&M UNIVERSITY

*These are approved by RSB just awaiting
Chairman signature, he is out of country
all summer will forward new signature sheet when
he returns*

Changes to facility security plan

- Sec 2.3 Change made to reflect the fact that door F-1 has both a combination and key lock associated with it
- Sec 3.2 Added the Head of the Department of Nuclear Engineering to the list of person authorized knowledge of the digital lock code to the reactor room
- Sec 3.4.2 Reworded to make it clear that all security violations would be referred to the Head of the Department of Nuclear Engineering
- Sec 3.5 Wording changed to clarify meaning of sentence removed the words **each meeting**
- Figures 2&3 Both Figures were updated to proper indicate the current room usage for each room inside the reactor facility

~~New Security Plan~~

New Security Plans and Procedures approved by RSB but awaiting Chairman signature, he is out of country all summer only minor changes made to each.
