Re: Partial Site Release of LaPlaza Complex Building B and C  
Associated with License 27-05861-02

To Whom it May Concern:

The purpose of this letter is to inform to the U.S. Nuclear Regulatory Commission (NRC) that the U.S. Environmental Protection Agency's (USEPA) National Center for Radiation Field Operations plans to terminate all radioactive material activities at its LaPlaza Complex Buildings B and C located at 4220 S. Maryland Pkwy. Las Vegas, NV. NCRFO plans to request a partial site release of these locations to be effective no later than September 30, 2022. We are still in the process of planning and preparing documents for this decommissioning. However, as of right now what information I do have is that Building B is a Group 1. Building B has previously been used as a training facility without the use of ionizing radiation. We plan to remove Building B from the license by September 30, 2020. Building C is a Group 2. The decommissioning will start sometime after the building is vacated which is presently scheduled for October 1, 2020. The current plan (which could change) that NCRFO has for building C is to have it completed and removed from the license by September 20, 2022. As information unfolds, I will make sure to make NRC aware. If there are any questions or concerns, please don't hesitate to contact me at the information below.

If you have any questions, please feel free to contact me at 702-784-8234 or at [Sejour.julie@epa.gov](mailto:Sejour.julie@epa.gov).

Sincerely,
