Gentlemen:

SUBJECT: INSPECTION REPORT NO. 45-19703/87-02

Thank you for your response of January 18, 1988, to our Notice of Violation issued on December 2, 1987, concerning activities conducted under NRC License No. 45-19703-01. Based on new information submitted in your January 18, 1988 response, Violations A and B are amended to reflect credit for a leak test and physical inventory on gauge serial number 8586 (Troxler Model 3401B).

However, Violations A and B remain as stated for gauge serial number 7992 and 11578 (Troxler Model 3401B and 3401, respectively).

The issuance of the original text of Violations A and B resulted from inaccurate or incomplete information provided to our inspector. In the future, you should insure that accurate and complete records are available for review during an inspection.

We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,
ORIGINAL SIGNED
