Mr. Bert Davis
 Regional Administrator
 Directorate of Inspection and Enforcement
 Region III
 U.S. Nuclear Regulatory Commission
 799 Roosevelt Road
 Glen Ellyn, IL 60137

Subject: Braidwood Station Operation Report, NRC Dockets 50-456 and 50-457.

Dear Mr. Davis:

Per Regulatory Guide 1.16, the initial Annual Operating Report is being submitted prior to March 1, of the year following initial criticality.

This Annual Operating Report includes a tabulation on an annual basis of the number of station, utility, and other personnel (including contractors) receiving exposures greater than 100 mrem/yr and their associated man-rem exposure according to work and job functions.

Recorded annual whole body external exposure for the calendar year 1987 for Braidwood Station indicated that no individual had received exposure of 100 mrem or greater.

Please contact Rock Aker, Radiation Chemistry Supervisor, if there are any questions.

Sincerely,

E. E. Fitzpatrick
 Station Manager
 Braidwood Nuclear Station
