POINT BEACH NUCLEAR PLANT
EMERGENCY PLAN IMPLEMENTING PROCEDURES (EIPs)

Attached is one copy of the Point Beach Nuclear Plant Emergency Plan Implementing Procedures Manual which contains recent revisions. Because only a few procedures and forms have not been revised an entire manual is provided.

Remove and destroy all of the procedures and forms that are presently in your manual and replace them with the pages provided. It will be necessary for you to retain and install the section divider tabs.

Please note that many procedures have been renumbered. Also, the content of the "Immediate Action" procedures (EIPs 2.1, 3.1, 4.1 and 5.1) and the "Plant and Company Personnel Notification" procedures (EIPs 2.2, 3.2, 4.2 and 5.2) have been consolidated into single procedures, "Emergency Event - Immediate Actions," (EIP 1.3) and "Emergency Event - Plant & Company Personnel Notification," (EIP 3.1), respectively.

The following procedures HAVE NOT been revised:

- EIP 6.3, "Plant & Exclusion Area Evacuation to Offsite Assembly Areas"
- EIP 7.3.1, "Airborne Sampling & Direct Dose Rate Survey Guidelines"
- EIP 7.3.3, "Post-Accident Sampling of Containment Atmosphere"
- EIP 7.3.4, "Movement of Required Chemistry Equipment & Materials to the Technical Support Center Counting Room & Mini-Laboratory"
- EIP 12.3, "Recovery Planning"

Many of the EIP forms have been renumbered. The new form numbers identify the procedure to which the form is associated. For example, form EIP-4.1a, "Technical Support Center Activation Checklist" is to be used with procedure EIP 4.1, "Technical Support Center Activation."

In addition, a number of forms are now called "worksheets" and are attached to the procedures to which they apply. For example, form EIP-08, "Estimated Whole Body & Thyroid Projected Doses" has been renamed "Worksheet 9.2-2" and is attached to procedure EIP 9.2, "Radiological Dose Evaluation." Worksheets will not appear on the "TABLE of EIP FORMS."
