Docket Nos. 50-352 and 50-353

Dear Dr. Murley:

Enclosed for filing with the Commission is Amendment No. 88 to the License Application of Philadelphia Electric Company in the above-captioned matter. This Amendment revises the Final Safety Analysis Report (Revision 51) by making various editorial, typographical and clarifying changes and by making changes to accurately reflect the Limerick design including modifications to the facility. Revision 51 also serves to update the FSAR to assure the information in the FSAR for Limerick Unit 1 is current, as provided in Section 50.71 of the Commission's regulations.

This filing consists of an original and 10 copies of Amendment No. 88 to the License Application, and 11 copies of Revision 51 to the Final Safety Analysis Report.

Very truly yours,
