Docket No. 50-265

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. R. L. Higgins and A. D. Morrongiello of this office on December 6, 1987 through February 6, 1988, of activities at Quad Cities Nuclear Power Station, Units 1 and 2 authorized by NRC Operating Licenses No. DPR-29 and No. DPR-30, and to the discussion of our findings with Mr. Tamlyn at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, two violations of Nuclear Regulatory Commission requirements, and two deviations from certain guides, codes and standards endorsed by the Nuclear Regulatory Commission, were identified. Since one violation (Paragraph 2.e.) met the guidelines of 10 CFR 2 Appendix C, V G, Paragraph 1, no Notice of Violation will be issued for that violation.

Regarding the remaining items, a written response is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.
