Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-338/88-16 AND 50-339/88-16)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by J. L. Caldwell on May 14 - June 10, 1988. The inspection included a review of activities authorized for your North Anna Power Station. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violations described in the enclosed inspection report are under consideration for escalated enforcement action. Accordingly, no response to these items are required. However, please be advised that the number and characterization of the violations described in the enclosed inspection report may change as a result of further NRC review. An Enforcement Conference to discuss Violation 339/88-16-02 is scheduled July 6, 1988. You will be advised by separate correspondence of the results of our deliberations of the other violation discussed in the report.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosure are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.
