Gentlemen:

SUBJECT: Grand Gulf Nuclear Station
Unit 1
Docket No. 50-416
License No. NPF-29
NRC Bulletin No. 88-04:
Potential Safety-Related Pump
Loss
AECM-88/0136

On June 24, 1988 System Energy Resources, Inc. (SERI) discussed a 30 day extension to respond to NRC Bulletin No. 88-04: "Potential Safety-Related Pump Loss" with the GGNS NRC Project Manager, Mr. L. L. Kintner. The extension was requested due to delays in receiving vendor information to complete the evaluation of NRC Bulletin No. 88-04.

Mr. Kintner agreed that the 30 day extension would be appropriate. This letter confirms the June 24 discussion with Mr. Kintner. SERI is expecting to submit its response to NRC Bulletin No. 88-04 by August 9, 1988.

If you have questions regarding this request, please advise.

Yours truly,
