Docket No. 50-271-OLA-2
(Testing Requirements for
ECCS and SLC Systems)

(ASLBP No. 88-567-04-OLA)

March 17, 1988

MEMORANDUM AND ORDER
(Extension of Time/Miscellaneous Rulings)

1.   On March 15, 1988, the NRC Staff filed a motion for an
extension of time within which to respond to intervention petitions
filed by the State of Vermont and the Commonwealth of Massachusetts.
(The Board Chairman was advised by telephone on March 14 of this
motion.) The Staff, which seeks an extension from March 16, 1988 to
March 23, 1988, advises that the Licensee and Vermont have no objection
and that it was not able to contact the Commonwealth. Good cause having
been demonstrated, the Staff's motion is granted.

2.   The Licensee/Applicant is requested, at its earliest
convenience, to provide each Licensing Board member with a copy of the
application for amendment, dated December 7, 1987, together with any
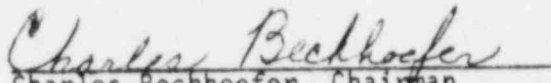

DS02

updating information concerning the application which has been or may be filed with the NRC.

3.   Each party or petitioner is requested to include the date of each document filed at the upper right hand corner of the document, as the Staff has done on its motion for extension of time. Each party or petitioner is further requested to identify each document filed in this proceeding (which concerns testing requirements for ECCS and SLC systems) with the nomenclature "Docket No. 50-271-OLA-2 (Testing Requirements for ECCS and SLC Systems)".

———————————————

IT IS SO ORDERED.

FOR THE ATOMIC SAFETY AND
LICENSING BOARD

Charles Bechhoefer, Chairman
ADMINISTRATIVE JUDGE

Dated at Bethesda, Maryland
this 17th day of March, 1988.
