Offsite Dose Calculation Manual

Dear Sir:

Please find enclosed ten copies each of Revisions 13, 14 and 15 of the Offsite Dose Calculation Manual for Catawba, McGuire and Oconee Nuclear Stations, respectively.

These revisions include minor changes and do not reduce the accuracy or reliability of dose calculations or setpoint determinations. These revisions have been reviewed and approved by the appropriate station managers as indicated on the following cover sheets and are effective January 1, 1987.

According to Technical Specification requirements, revisions to the Offsite Dose Calculation Manual are to be submitted in the semi-annual Radioactive Effluent Release Report. As a matter of convenience, we are submitting these revisions prior to submittal of the Semi-Annual Radioactive Effluent Release Report for the period January-June 1987. Please advise if there are questions concerning this matter.

Very truly yours,

Hal B. Tucker
