Attn: Mr. W. P. Stewart, Director
Power Production
P. O. Box 14042, Mail Stop C-4
St. Petersburg, Florida 33733

Gentlemen:

This refers to the inspection conducted by Messrs. D. R. Quick and T. J. Donat of this office on August 30, - September 1, 1978, of activities authorized by NRC Operating License No. DPR-72 for the Crystal River Unit 3 facility, and to the discussion of our findings held with Mr. G. P. Beatty at the conclusion of the inspection.

Areas examined during this inspection included review of Operator Training on Small Break Interim actions, qualification of safety-related electrical equipment, safety injection system reset features, review of plant operations, and system realignments in support of startup activities. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

We have examined actions you have taken with regard to previously unresolved items. The status of these items is discussed in the enclosed report.

During the inspection, it was found that certain activities under your license appear to be in noncompliance with NRC requirements. This item and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. This notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within 20 days of your receipt of this notice, a written statement or explanation in reply including: (1) corrective steps which have been taken by you, and the results achieved; (2) corrective steps which will be taken to avoid further noncompliance; and (3) the date when full compliance will be achieved.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you

make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

F. J. Long, Chief
Reactor Operations and Nuclear
Support Branch
