

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

July 8, 1988

Docket Nos.: 50-424
50-425

Mr. Robert A. Wieseemann, Manager
Regulatory and Legislative Affairs
Westinghouse Electric Corporation
Box 355
Pittsburgh, Pennsylvania 15230-0355

Dear Mr. Wieseemann:

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
(CAW-88-011)

By letter dated February 29, 1988, Georgia Power Company submitted "LOFTTR2 Analysis for a Steam Generator Tube Rupture Event for the Vogtle Electric Generating Plant Units 1 and 2," WCAP-11731, and requested that it be withheld from public disclosure pursuant to 10 CFR 2.790. Also submitted was your affidavit dated February 3, 1988.

Your affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

1. The information sought to be withheld from public disclosure is owned and has been held in confidence by Westinghouse.
2. The information is of a type customarily held in confidence by Westinghouse and not customarily disclosed to the public.
3. The information was transmitted to the NRC in confidence.
4. The information is not available in public sources.
5. Public disclosure of this information is likely to cause substantial harm to the competitive position of Westinghouse.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains trade secrets or proprietary commercial information.

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Act of 1954, as amended.

Mr. Robert A. Wiesemann

-2-

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

Sincerely,

JSJ

Jon Hopkins, Project Manager
Project Directorate II-3
Division of Reactor Projects I/II
