Landow W. Zech, Jr., Chairman
Safety & Licensing Board
Nuclear Regulatory Commission
Matomic Building
1717 H Street, NW
Washington, DC 20555

Dear Chairman Zech:

Please reconsider the recent attempt by the Nuclear Regulatory Commission to usurp emergency evacuation planning approval from local and state governments.

The Shoreham nuclear power plant should not be granted a license. As residents living and working in the vicinity of the plant, we are not convinced of the safety of its construction. We are also appalled by the excess costs largely due to mismanagement that we are being asked to bear. Such mismanagement underscores the probability that the plant has been constructed in a slipshod manner and should not be operated.

Sincerely,

Benjamin Burr
