Project Directorate II-3  
Division of Reactor Projects-I/II

SUBJECT: REQUEST FOR PUBLICATION IN BIWEEKLY FR NOTICE - NOTICE  
OF ISSUANCE OF AMENDMENT TO FACILITY OPERATING LICENSE  
(TACS 68222/68223)

Georgia Power Company, Oglethorpe Power Corporation, Municipal Electric Authority of Georgia, City of Dalton, Georgia, Docket Nos. 50-321 and 50-366, Edwin I. Hatch Nuclear Plant, Units 1 and 2, Appling County, Georgia

Date of application for amendments: May 6, 1988, as supplemented June 7, 1988

Brief description of amendments: The amendments modified the Technical Specifications by replacing the organization charts with more general organization requirements.

Date of issuance: July 12, 1988

Effective date: July 12, 1988

Amendment Nos.: 155 and 94

Facility Operating License Nos. DPR-57 and NPF-5. Amendments revised the Technical Specifications.

Date of initial notice in FEDERAL REGISTER: June 3, 1988 (53 FR 20397). The supplemental information submitted by the licensee on June 7, 1988 was editorial in nature and did not affect the substance of the initial notice or the staff's proposed no significant hazards consideration determination. The Commission's related evaluation of the amendments is contained in a Safety Evaluation dated July 12, 1988.

We find the requested changes acceptable as the new position of General Manager-Nuclear Plant is the position that provides direct executive oversight over all aspects of the Hatch Plant.

4. GPC requested the revision of Section 5 to delete Figure 5.2-1 and change the reference in this section from Senior Executive Vice President to Vice President-Nuclear.

We find these requested changes acceptable as they conform to Generic Letter 88-06 and the new designation of responsibilities.

On the basis of its review as discussed above, the NRC staff concludes that the licensee has provided an acceptable response to these items as addressed in the NRC guidance on removing organization charts from the administrative control requirements of the TS. Furthermore, the NRC staff finds that these changes are consistent with the staff's generic finding on the acceptability of such changes as noted in GL 88-06. Accordingly, the NRC staff finds the TS changes to be acceptable.

### 3.0 ENVIRONMENTAL CONSIDERATION

These amendments relate to changes in administrative procedures or requirements. Accordingly, the amendments meet the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(10). Pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the issuance of these amendments.

### 4.0 CONCLUSION

The Commission made a proposed determination that the amendments involve no significant hazards consideration as published on June 3, 1988 in the Federal Register (53 FR 20397), and consulted with the State of Georgia. No public comments were received, and the State of Georgia did not have any comments.

On the basis of the considerations discussed above, the staff concludes that: (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of these amendments will not be inimical to the common defense and security or to the health and safety of the public.
