

July 8, 1988

Docket No. 50-334
50-412

Mr. J. D. Sieber, Vice President
Duquesne Light Company
Nuclear Group
Post Office Box 4
Shippingport, PA 15077

Dear Mr. Sieber,

SUBJECT: BEAVER VALLEY UNITS 1 & 2 - NRC BULLETIN 88-01, "DEFECTS IN WESTINGHOUSE CIRCUIT BREAKERS" (TACS 67640 and 67641)

On February 5, 1988, we issued NRC Bulletin 88-01 to request holders of operating licenses or construction permits to provide letters of confirmation of the completion of specified inspections on Westinghouse DS series circuit breakers. Addresses who do not have DS series circuit breakers in Class 1E service were requested to provide a letter to the NRC stating this fact.

Your response dated March 7, 1988, and supplement dated June 30, 1988, confirmed that (1) for Beaver Valley Unit 2, requested inspections on all relevant circuit breakers and that corrective actions, when needed, have been or will be completed in accordance with the NRC Bulletin, and (2) Westinghouse DS series circuit breakers are not used in safety-related applications at Beaver Valley Unit 1. Thus, your response to Bulletin 88-01 is satisfactory, and no further reply is necessary.

Sincerely,

/s/

Peter S. Tam, Project Manager
Project Directorate I-4
Division of Reactor Projects I/II
Office of Nuclear Reactor Regulation
