OFFICE OF DOCUMENTS

Gentlemen:

Re: Proposed Federal Rules to
license nuclear power plants
over State and Local Government jurisdictions

I am a resident of Suffolk County, Long Island, New York.
My home is in Ridge which borders on Sherman in Brookhaven
Township.

Please be aware that we in Brookhaven have voted ourselves out
who supported opening the Shorcham Nuclear Plant.

Our reasons for not wanting this nuclear plant are as
follows:

1. We are an island with no bridges from Nassau or Suffolk Counties to the mainland.
2. We have 2 retirement developments in Ridge with another being built. We also have an adult home in the area. Many residents are dependant on local bus services.
3. Shorcham Nuclear Plant is not needed for power on Long Island.
4. Long Island Lightening Co. is pricing itself out of business. We in Suffolk County pay the highest rates for Electricity. With the Shorcham plant on line, how will we be able to pay the rates.
