Omaha Public Power District
ATTN: R. L. Andrews, Division Manager-
      Nuclear Production
1623 Harney Street
Omaha, Nebraska 68102

Gentlemen:

This refers to the enforcement conference held at Region IV's request in the
NRC Region IV office on March 21, 1988, which was attended by you and other
representatives of the Omaha Public Power District. This conference was held
to discuss recent inspection findings (Inspection Report No. 50-285/88-05),
the apparent violations, and the applicable NRC enforcement policy.

The subjects discussed at this conference are described in the enclosed
meeting summary.

It is our opinion that this enforcement conference was beneficial and has
provided a better understanding of the NRC regulatory requirements as they
relate to your reactor program. In accordance with Section 2.790 of the NRC's
"Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of
this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this conference, we will be pleased
to discuss them with you.

                                        Sincerely,

                                        Original Signed By
                                        A. B. Beach

                                        L. J. Callan, Director
                                        Division of Reactor Projects
