NUCLEAR REGULATORY COMMISSION
Washington, D.C. 20555
ATTN: Docketing and Service Branch

Dear Sir/Madam:

This is in response to the proposed rule change with regard to the evacuation plans necessary before opening a nuclear power plant.

I have lived on Long Island all of my life and I have voted in every election for which I've been eligible. Therefore, I assume that, living in this "free" country of ours, I have helped elect the people who share my concerns and will protect my interests. What gives you or anyone the power to come in to my community and force upon me an unsafe, nuclear death sentence for me, my family and my neighbors? THIS IS AN OUTRAGE!!

The people living in a community know by experience what is good for them and what is not. It should be enough for anyone to hear that all of the residents and their elected officials have determined that a nuclear power plant is undesirable and unsafe for their particular area. This is what this country is all about.

I feel that your rule change would be an infringement upon my rights as a citizen and a member of a community to choose which activities my community will take part in and which activities we consider a dangerous waste of money and human lives. THEREFORE, I DEMAND THAT YOU WITHDRAW THIS PROPOSAL AND HELP PROTECT MY INTERESTS, AS YOU ARE SUPPOSED TO BE DOING, AND NOT THE INTERESTS OF A HANDFUL OF GREEDY MURDERERS!

Thanking you for your time, I am,
EXTREMELY DISSAPPOINTED,

Ginger R. Levine
