Mr. T. E. Murley
U.S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, DC. 20555

Attn: Document Control Desk

Subject: Braidwood Station Unit 2
Fire Protection Status
NRC Docket No. 50-457

References: (a) December 16, 1987 S.C. Hunsader letter to T.E. Murley
(b) March 14, 1988 S.C. Hunsader letter to T.E. Murley

Dear Mr. Murley:

Reference (a) provided the status and schedule for the completion of certain fire protection items. Included in this status was the scheduled completion of structural steel fire-proofing and, in particular the completion schedule of structural steel fire-proofing in the Lower Cable Spreading Room. Referenced (b) included in part an updated status of the completion in this area and stated that the Lower Cable Spreading Room would be completed by March 30, 1988.

The purpose of this letter is to inform you that as of March 30, 1988, the structural steel fire-proofing in the Lower Cable Spreading Room has been completed. By completion of this item, the remaining fire protection item of Attachment I to Facility Operating License NPF-75, as presented in Referenced (b) has been completed.

Please address any questions concerning this matter to this office.

Very truly yours,

S. C. Hunsader
Nuclear Licensing Administrator
