Dear Dr. Leone:

Subject: Routine Inspection No. 88-001

On May 23, 1988, Steven Courtemanche of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records.

The findings of the inspection were discussed with K. Venkatesh Bhatrahally, M.D. at the conclusion of the inspection.

Thank you for your correspondence dated May 25, 1988. The copies of the records of output spot-checks answered all of our questions concerning these procedures. The failure to maintain these records will not be cited as an item of apparent non-compliance. Rosemarie Favara of your staff was informed of our findings in this area on June 1, 1988 during a telephone conversation with Mr. Courtemanche.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. A Notice of Violation is enclosed as Appendix A and categorizes each violation by severity level in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (Enforcement Policy). You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
