DATE COMPLETED	1/14/88
BY	AMC

I wish to notify you of a future change in ownership of Rexnord Process Controls, 45 Great Valley Parkway, Malvern, PA 19355. The future owner, BioMarine Inc. is a Delaware company. The estimated date of this sale will be January 1, 1988.

As per your instructions, we are contacting you and will answer 3-C of your guidelines for material licensing cases involving change of ownership.

1. As indicated above, the licensed organization's name will be BioMarine Inc.
2. The names of the Radiation Protection Officer will be as of the present license, Richard King. Mr. Justin Mills is on temporary disability due to poor health. A back-up Radiation Officer will be T.K. Billingsley, General Manager.
3. The seller, Rexnord Process Controls, will not remain in business.
4. The transfer will be accomplished by the purchase of assets.
5. There are no changes in the organization in Malvern, location, facility, equipment or personnel that would require license amendment even without the change of ownership. Mr. Mills is still doing consulting work.
6. The purchaser does agree to abide by all commitments and presentations previously made to the NRC by the seller. Written documentation should show clearly that both the buyer and seller agree to this transfer.

Attached to this letter is a letter from Mr. Stephen Eilinsfeld, General Manager of Rexnord Process Controls, agreeing to the transfer. Also attached is a letter from Mr. T. K. Billingsley, General Manager of BioMarine Inc. requesting the amendment to the license.

Very truly yours,

Justin W. Mills
Manager of Engineering
