Company

ATTN: Mr. Alvin Kaplan
Vice President
Nuclear Group

10 Center Road
Perry, OH 44081

Gentlemen:

This confirms our plans as discussed between you and Mr. Kevin Connaughton of this office to have a meeting with you and members of your staff at Perry, on August 2, 1988 at 1:00 p.m. (EDT). The purpose of the meeting is to present the SALP 8 report for Perry.

We encourage you to have appropriate corporate and plant management representation at the meeting to ensure a mutual understanding of the issues and findings being presented by the NRC.

While this meeting is considered a presentation and discussion forum between Cleveland Electric Illuminating Company and the NRC, the meeting will be opened to any other interested parties as observers. Those persons outside the licensee and NRC staffs should inform the Regional Office of their intent to participate.

We hope this meeting will benefit your organization and provide you with a meaningful characterization of the overall safety performance for the Perry plant.

Sincerely,

A handwritten signature in cursive script, appearing to read "Edward G. Greenman".
