Dear Mr. Trevors:

SUBJECT: COOPER NUCLEAR STATION DCRDR REVIEW
SCHEDULE CHANGE (TAC NO. 65504)

In the June 2, 1987 letter forwarding our Detailed Control Room Design Review Safety Evaluation Report Supplement No. 2 we stated that we anticipate receiving your DCRDR Summary Report Supplement No. 3 within 60 days following completion of the next (1988) refueling outage.

It is the staff's request that your next DCRDR supplement reflect the modifications to be performed during the 1989 outage in addition to those of the 1988 outage. Accordingly, you should postpone the Supplement No. 3 submittal until 60 days following completion of the 1989 outage.
