

JUL 13 1988

MEMORANDUM FOR: Leland C. Rouse, Chief
 Fuel Cycle Safety Branch
 Division of Industrial and
 Medical Nuclear Safety, NMSS

FROM: John P. Roberts, Section Leader
 Irradiated Fuel Section
 Fuel Cycle Safety Branch

SUBJECT: MEETING WITH BALTIMORE GAS AND ELECTRIC COMPANY (BG&E)

DATE/TIME: July 7, 1988; 9 a.m.

LOCATION: Room 6-B-11, One White Flint North Building, Rockville, MD

ATTENDEES: See Enclosure

PURPOSE: To discuss submittal of a license for dry spent fuel storage
 under 10 CFR Part 72 for BG&E's Calvert Cliffs plant site.

DISCUSSION:

BG&E outlined its need for storage capacity for spent fuel. By the time of its spring 1992 outage it will have lost full core reserve in the single pool serving the two units at Calvert Cliffs. Therefore, after considering various alternatives, BG&E plans to submit a license application for onsite dry storage in January 1989. It is evaluating bids now from various vendors. Award of a contract will be made on September 1, 1989. The site selected for dry storage is 1300 feet west of the plant switch yard.

BG&E and NMSS staff tentatively agreed to a late September 1988 meeting including BG&E's selected vendor. BG&E hopes to receive a license by October 1991 for life of plant storage.

John P. Roberts, Section Leader
 Irradiated Fuel Section
 Fuel Cycle Safety Branch
