SUBJECT: STANDARD PARAGRAPH REGARDING 10 CFR 2.790

The 2.790 paragraph used in the transmittal letter to the licensee has been revised in response to Region II interest in this issue. The shortened form of this paragraph is provided below:

"In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure(s) will be placed in the NRC Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1)."

The long form of this paragraph, provided in IE Manual Chapter 1025, is still appropriate for use and is recommended for nonreactor licensees.

Effective immediately, the short form 2.790 paragraph may be used in correspondence with reactor licensees. IE Manual Chapter 1025 will be revised accordingly.

This closes AITS item F02300070.
