Mr. Henry D. Hukill, Vice President
and Director - TMI-1
GPU Nuclear Corporation
P. O. Box 480
Middletown, Pennsylvania 17057

Dear Mr. Hukill:

Supplement 4 to NUREG-0680 "TMI-1 Restart", dated October 1983, noted that the TMI-1 procedure governing valve or breaker line-up verification in effect at that time (approximately mid-1983) was not explicit as to how independent verification of position was to be performed. Supplement 4 further noted that GPU Nuclear management was aware of this matter and intended to issue additional guidance. This additional guidance was subsequently provided in Revision 13 to TMI-1 Administrative procedure 1029, "Conduct of Operations" which the staff has reviewed. For reasons as set forth in the enclosed Safety Evaluation, we conclude that you have made adequate procedural provisions for independent verification of valve and breaker position and that this issue is resolved.

Sincerely,

"ORIGINAL SIGNED BY

JOHN F. STOLZ"

John F. Stolz, Chief
Operating Reactors Branch #4
Division of Licensing
