Dear Mr. Schnell:

Subject: Additional Information Needed to Resolve Five-Percent
License Conditions

In the Callaway License, there are several conditions which must be met prior to operation above five-percent of rated power. The specific issues along with the current status are detailed in the enclosure. Because these issues require a detailed staff review and in order to support the projected full-power amendment date of August 15, 1984, you should provide the needed information no later than June 29, 1984. All of these issues have been previously discussed with members of your staff.

If you require any additional information or clarification, please contact the Callaway Project Manager.

Sincerely,
