Congressman Duncan,

I'm writing this letter because I'm very concerned about a newspaper article I read recently. This article was concerning uniforms for Nuclear Power Plant operators, in particular at Sequoyah in Chattanooga. The cost of these uniforms is an astounding \$200,000, plus upkeep. Even more astounding is the fact that these uniforms are being purchased from "Arsine" and "Lovemans". These are the two most expensive chains in our area.

S.V.A. and Mr. White are both getting out of hand with their expenditures. As a rate payer and a taxpayer, I object to this kind of expenditure. I'm sure these Nuclear Power plant operators have no desire to be uninformed. I speak with more knowledge than most. My father was past Design Manager of Watts Bar Nuclear Plant, and I was a nuclear power plant operator USS Enterprise up to 1971.

Sir, please push for tighter controls on TVA. All of our community feels the same. I've talked to many.

Sincerely
Paul F. Perie
