Reference: Application For Material License
NRC Form 313

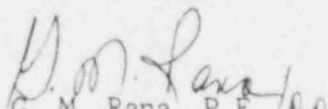

Gentlemen:

Enclosed please find our check no. 7452 in the amount of \$120.00 which was not included with our Material License Application. The application is to license the Cesium-137 and Americium-241 materials which are to be used in our Troxler Electronic Laboratories, Inc. 3400 Series gauge to measure moisture/density of construction materials.

We trust you will find this all in order and wish to apologize for any inconvenience this may have caused.

Respectfully yours,

R & R INTERNATIONAL, INC.
