

ILLINOIS POWER COMPANY

CLINTON POWER STATION, P.O. BOX 678, CLINTON, ILLINOIS 61727

August 3, 1988

Docket No. 50-461

U. S. Nuclear Regulatory Commission
Document Control Desk
Washington, D.C. 20555

Subject: Response to the Regulatory Effectiveness Review
for Clinton Power Station

Dear Sir:

NRC letter dated May 3, 1988, detailed the results and conclusions of the Regulatory Effectiveness Review (RER) for the Clinton Power Station. The letter requested that Illinois Power Company (IP) respond to certain identified findings. Attachment A to this letter provides the Illinois Power Company response to the RER.

Illinois Power Company has carefully reviewed the requisite issues identified in the RER and determined that the existing security program provides for effective protection of Clinton Power Station and complies with applicable regulations. However, as a result of this review, IP has taken several actions to enhance the existing program.

The details and discussions contained in Attachment A are of a subject matter which is exempt from disclosure according to Part 73, Title 10, Code of Federal Regulations, Section 73.21 (c)(2). If you have any questions concerning this information, please contact me.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'F. A. Spangenberg'.

F. A. Spangenberg, M.I.
