Oak Ridge, TN 37830

Gentlemen:

SUBJECT: MEETING SUMMARY - CLINCH RIVER BREEDER REACTOR PLANT (CRBRP) SITE
REDRESS - DOCKET NO. 50-537

This letter refers to the management meeting conducted, at our request, at the Oak Ridge Operations office on December 16, 1985. The meeting was held to review and inspect the redress and reclamation of the CRBR site. The site redress and reclamation drawings were reviewed; discussions were held with Mr. R. A. Chidlaw of your staff and Mr. H. M. Cox, Project Engineer, DOE Construction, and a subsequent tour of the site was performed. Based on our review of the CRBRP Site Redress Plan, drawings, observations and understandings from previous meetings and communications, we conclude that the site restoration is as described in the plans and specifications.

The Nuclear Regulatory Commission, Region II inspection efforts for the project are finished.

Sincerely,
