S.W. Cole Engineering, Inc.
ATTN: Dean A. Larrabee
Senior Engineering Technician
Six Liberty Drive
Bangor, ME 04401

Gentlemen:

This is in reference to your letter dated July 1, 1985 and a subsequent telephone conversation with your company and our office on September 12, 1985, regarding your new location. In order to continue our review, please answer the following questions:

1. In order to approve your company to train individuals in the safe and correct use of the Troxler portable nuclear gauges, you will need to submit an outline of your training program containing as a minimum the following information:
 - a) The subjects covered in the course.
 - b) The names of the individuals who will provide this training.
 - c) The training and qualifications of these individuals who will provide this training.
 - d) A sample copy of the training certificate you will issue to each individual who has successfully passed your training course.
 - e) A copy of the questions you will use to test these students to determine their proficiency in the use of these gauges.
2. It is our undersatnding from our telephone conversation with your company, that you have moved your facilities from your old address (2001 Hammond Street) to Six Liberty Drive, Bangor, Maine.

If you have also changed the location where the portable gauges are stored, then you must specify on a sketch of your facility where these gauges are now stored. Describe the security controls you have in place for ensuring that only authorized individuals are allowed access to this nuclear equipment.
