Gentlemen:

This refers to the inspection conducted by Mr. A. B. Earnest of this office during the period December 16-19, 1985, of activities authorized by NRC Construction Permits CPPR-128 and CPPR-129 for the South Texas Project, Units 1 and 2, and to the discussion of our findings with Mr. G. G. Parker and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included the security organization, openings under the protected area (access control), fitness for duty, perimeter barriers, and the physical security plan. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By
J. E. Gagliardo
