

APR 25 1988

Virginia Electric and Power Company
ATTN: Mr. D. S. Cruden, Vice President,
Nuclear Operations
P. O. Box 26666
Richmond, VA 23261

Gentlemen:

SUBJECT: DOCKET NOS. 50-338 AND 50-339

This acknowledges the receipt of your letter of March 8, 1988, which transmitted Revision 20 to the North Anna Physical Security Plan.

Our review of the changes has found portions of the changes to be consistent with the provisions of 10 CFR 50.54(p). One change is not consistent with the provisions of 10 CFR 50.54(p) as delineated in the enclosure to this letter and discussed in a teleconference on April 5, 1988 between Mr. Beauchamp of your staff and Ms. Masnyk of the Region staff.

To preclude a violation of regulatory requirements, you must not continue to implement the change deemed inconsistent. Please revert to the commitments in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue the change deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provisions of 10 CFR 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

William E. Cline, Chief
Nuclear Materials Safety and
Safeguards Branch
Division of Radiation Safety
and Safeguards

ENCLOSURE

Revision 20 to the North Anna Physical Security Plan

Change Deemed Inconsistent with the Provisions of 10 CFR 50.54(p)

Section

Comment

Section 3.2.2.4.4, page 3-18

This section discusses the staging of material for delivery into the protected area in a warehouse outside of the protected area. The previous revision stated that material "will" be searched and then escorted by security personnel into the protected area; this revision changes the word "will" to "may". This could be interpreted to mean that material may or may not be searched and then escorted into the protected area. Revert to your original commitment to "will" be searched.
