Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-338/88-18 AND 50-339/88-18)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by F. N. Wright on June 6-10, 1988. The inspection included a review of activities authorized for your North Anna facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selected examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violation, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation. An additional violation of NRC requirements was identified during the inspection. However, because all of the criteria for categorization of licensee identified violations were met, the violation is not being cited. The details pertaining to the licensee identified violation are described in the enclosed Inspection Report.

In accordance with section 2.790 of the NRC's "Rules of Practice," Part 2, Title, 10 Code of Federal Regulations, a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.
