Division of Fuel Cycle and  
Material Safety  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Docket No. 030-02923  
License No. 35-13184-01  
Control No. 18514

SUBJECT: Relocation of Research Laboratory

Dear Mr. St. Mary:

We are anticipating to relocate our research laboratory to a new area in our Medical Center within next few weeks. The radioactive material listed in Item 6.b. of our license renewal application dated 12/20/84 which refers to the previous letter dated 4/14/82 (Amendment No. 12), will be used here for research purposes. The laboratory design, facilities, equipment and ventilation system are adequate for the scope of our research program. A sketch of the relocated research laboratory is enclosed.

Should you need additional information, please let us know.

Sincerely,

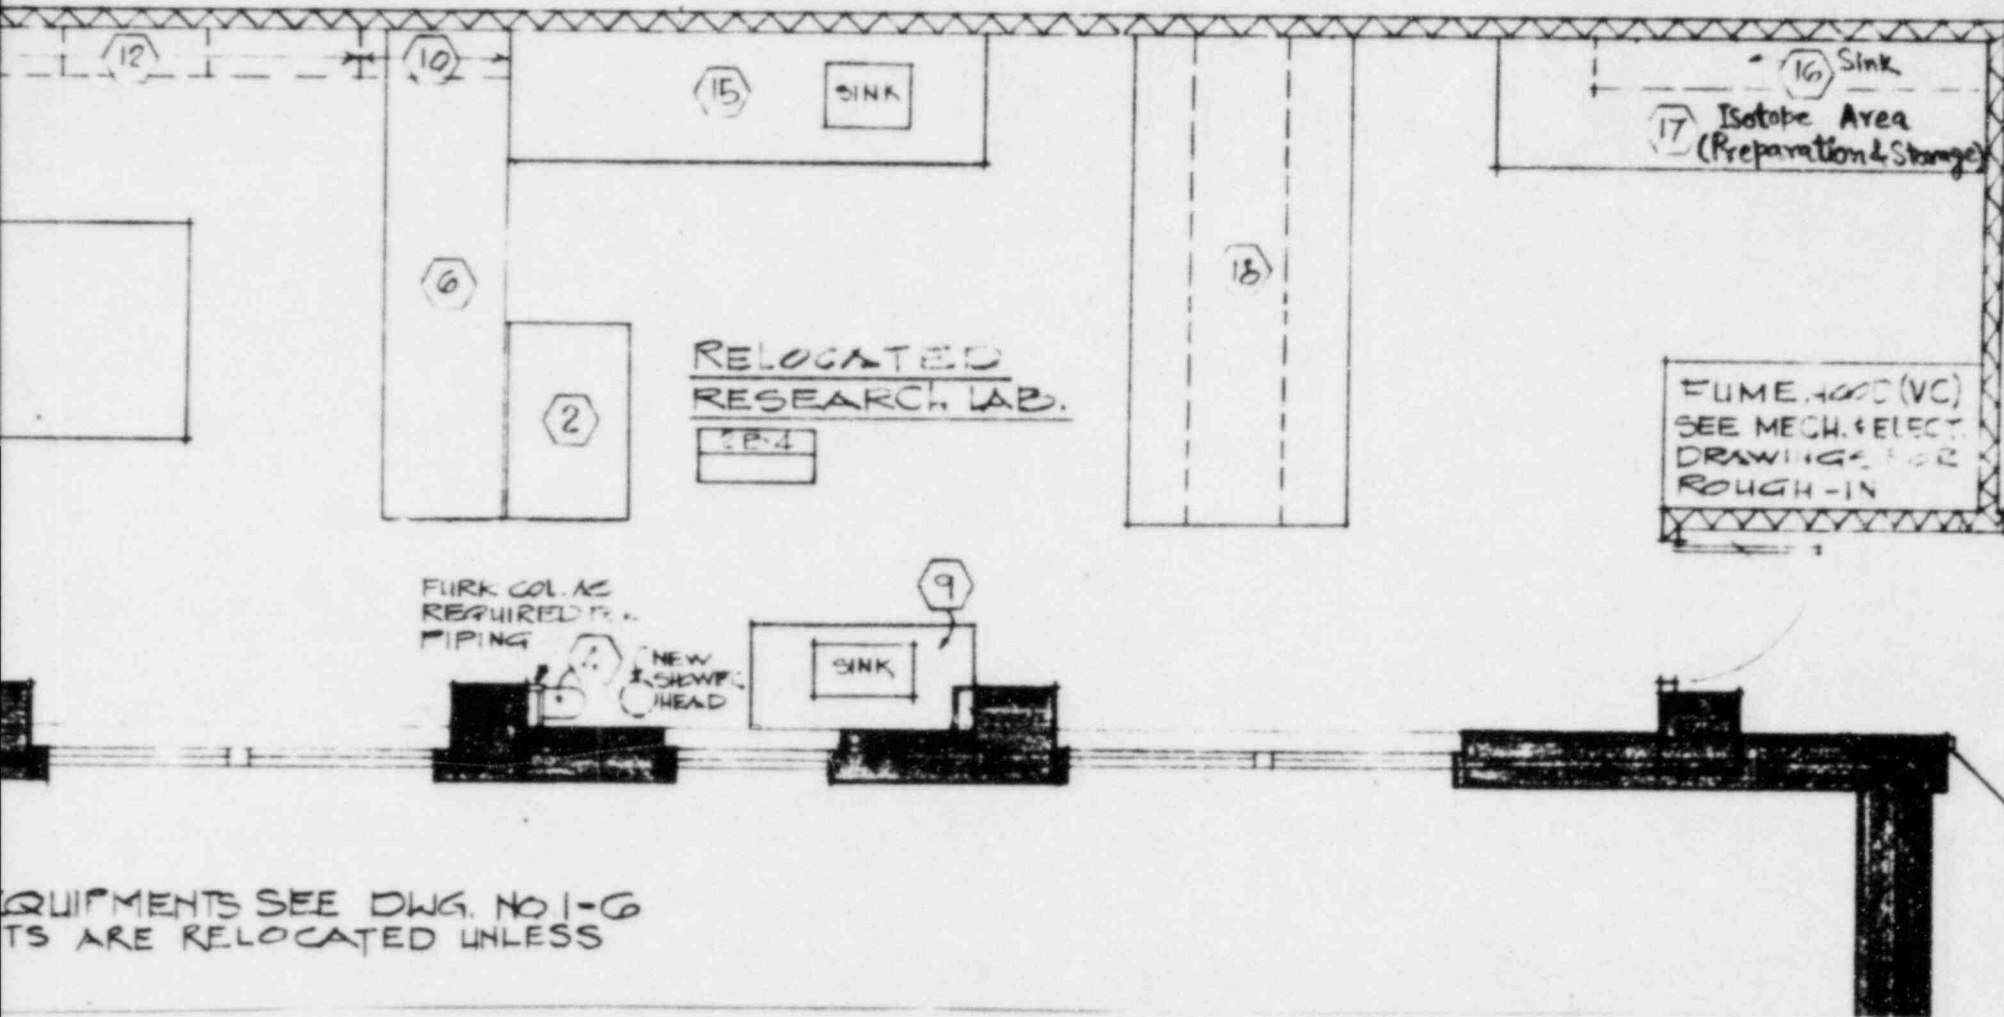

A handwritten signature in dark ink, appearing to read 'Fred Salas'.

FRED SALAS  
Medical Center Director
