Gentlemen:

We have received a copy of your application dated September 19, 1985, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application transmitted a scope change from that originally proposed for the Recirculation Loop Interlock for the Oyster Creek Nuclear Generating Station.

Fees pursuant to 10 CFR 170, as revised June 20, 1984, were not remitted with your application. This revised rule requires licensees to remit an application fee of \$150 with each application for license amendment, relief, exemption and other request. Therefore, it is requested that your Corporation remit the required application fee of \$150 for your September 19 request. Your Corporation will be billed for any additional costs for the review of your application in accordance with 10 CFR 170.12(c) and 170.21.

Sincerely,
