Dear Mr. Davis:

DOCKET NOS. 50-266 AND 50-301
ABBREVIATED SITE ACCESS TRAINING
POINT BEACH NUCLEAR PLANT

Your letter dated July 27, 1988, requested our cooperation in providing abbreviated site access training for non-Region III NRC employees who have received appropriate training in the generic aspects of radiation safety, physical security and emergency response. You indicated that certification of this training for non-Region III employees would be forwarded to Wisconsin Electric periodically by your office. This letter confirms that we will accommodate non-Region III personnel in our abbreviated site access training program if they have been listed on the Region III provided access list and provide appropriate personal identification.

Very truly yours,
