Materials Safety Branch  
Division of Industrial and Medical *EC*  
Nuclear Safety  
Office of Material Nuclear Safety and  
Safeguards

DATE: September 8, 1998

RE: REFERENCE NOT FOUND IN FILE

In the process of transferring Agfa Coprorations's registration certificate for the Model BKG 40823-01, a custom denisty measurement gauge, to inactive status it was discovered that a letter dated January 20, 1989, which had been reference in the original registration certificate was not in the background file. An attempt was made to locate this letter using NUDOCs, but proved to no avail.
