EASTHAMPTON, MASS 01027 (413) 527-0700

October 25, 1978

Nuclear Regulatory Commission  
Region I  
631 Park Avenue  
King of Prussia, Pa. 19406

Attention: Mr. Robert O. McClintock, Chief  
Materials Radiological Protection Section

Dear Mr. McClintock:

Please be advised that the Byproduct Material in question (BG1 and SM6) or (810 and 306) has been sent to L.F.E. Corp., Process Control Division, 1601 Trapelo Road, Waltham, Massachusetts 02134, for disposal.

The material left this plant (Easthampton) on Friday, October 20, 1978 and arrived in tact at L.F.E. (confirmed via telephone this day, 10/25).

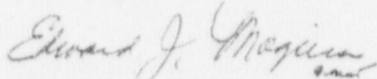

Our purchase order to L.F.E. for disposal of the two (2) sources is #618-1249K.

I understand that the other two sources located in our Easthampton plant (BG50 - #994 and BG50 - #982) will be covered by L.F.E.'s General License as per my phone conversation with Mr. B. G. O'Neill of your office.

Again, thank you for your understanding and allowing us time to have L.F.E. dispose of these sources for us.

Sincerely,

STEVENS ELASTOMERIC AND PLASTIC PRODUCTS INC.  
A subsidiary of J. P. Stevens & Co., Inc.

Edward J. Magiera  
Plant Engineer
