License No. 20-00403-02
Expiration Date: May 31, 1978

Gentlemen:

SUBJECT: NOTICE OF EXPIRED LICENSE

This refers to the telephone discussion between Mr. B. O'Neill of this office and yourself on October 11, 1978.

NRC records show that the Byproduct Material License identified above has expired and no renewal application has been filed in accordance with Section 30.37 of Title 10, Code of Federal Regulations, Part 30.

From our discussion with your representative we learned that you still possess material which requires a specific NRC license. Your possession of that material without a specific license is a violation of Section 30.3 of 10 CFR Part 30. Therefore, you must take the following actions:

Divest yourself of the material immediately, in a lawful manner, and prepare a statement which explains the method of disposal of the materials--what material was involved, how it was disposed of or to whom it was shipped, and when this was done.

A copy of the statement shall be sent, within fifteen (15) days of the receipt of this letter, to Region I, U.S. Nuclear Regulatory Commission, 631 Park Avenue, King of Prussia, Pennsylvania, 19406, ATTN: Mr. R. O. McClintock, Chief, Materials Radiological Protection Section, Fuel Facility and Materials Safety Branch.

Also, if the activities conducted under the expired license were subject to the reporting requirements of 10 CFR 20.407, you must submit the annual report required by 20.408 for individuals engaged in activities under the expired license. Those reports must be submitted to the Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, ATTN: Mr. J. B. Winningham.

We request that you give prompt attention to these matters.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert O. McClintock".

Gentlemen:

Subject: Inspection No. 78-01

This refers to the inspection conducted by Ms. M. Campbell and Mr. T. Jackson of this office on September 6, 1978, of activities authorized by an NRC General License and to the discussions of our findings held by Ms. M. Campbell with yourself at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Within the scope of this inspection, no items of noncompliance were observed.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

No reply to this letter is required; however, should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Robert O. McClintock, Chief
Materials Radiological Protection
Section
