Millstone Nuclear Power Station Unit 2
Generic Letter 89-10 Motor-Operated Valve Program
Commitment Retraction Regarding Closure Report

Our previous correspondence, dated November 22, 1995, provided a GL 89-10 closure report and stated that it would be an attachment to the Motor Operated Valve (MOV) Program Manual. The MOV Program has since evolved and the information in the closure report no longer applies. Therefore, the commitment to attach a closure report to our MOV Program Manual is being retracted. This letter provides the basis for closing our previous commitment to update the GL 89-10 MOV November 22, 1995, submittal.

Should you have any questions regarding this letter, please contact Mr. R. G. Joshi at (860) 440-2080.

Very truly yours,
NORTHEAST NUCLEAR ENERGY COMPANY
