Mr. Lando W. Zech, Jr., Chairman
Nuclear Regulatory Commission
Washington, D.C., 20555

Dear Chairman Zech and Commission Members:

The recent hearings about Region 4 at the NRC concerning inspection and enforcement of nuclear safety cause me great concern. My concern centers on the South Texas Nuclear Project, in which the City of Austin owns a 16% partnership. In the event of a nuclear accident, this plant could cause harm to virtually all of south Texas.

I support the Government Accountability Project's motion for a special project team which can operate independently of Region 4 and of Mr. Victor Stello (Director of Nuclear Operations). The objectivity at the conventional inspection process has been thoroughly questioned by the recent Congressional hearings, and the need for an independent team appears necessary.

I further support the Citizens Concerned about Nuclear Power (CCANP) organization's motion to reopen STP licensing hearings. If the recent Congressional hearings are any indication of Region 4 procedure at STNP, the true status of STNP's safety appears most questionable and a reopening would be appreciated.

Sincerely,

Sally Shipman
Council Memberxc: Senator Lloyd Bentsen

WASHINGTON, D.C. 20510

DEAR SENATOR BENTSEN,

PLEASE FIND A COPY OF A LETTER I SENT TO THE NRC.
ENCLOSED. I AM CONCERNED THAT STP IS A BAD PLANT,
AN UNNECESSARY PLANT, AND A SEVERE OBSTACLE TO OUR
EFFORTS TO KEEP THE HIGH LEVEL NUCLEAR WASTE REPOSITORY
OUT OF TEXAS.

IT MAY STILL BE POSSIBLE TO STOP STP. AT LEAST
WE MUST INSURE THAT SAFETY INSPECTIONS AND
INVESTIGATIONS INTO ALLEGED NEGLIGENCE AND VIOLATIONS
BE CONDUCTED WITH INTEGRITY.

I WISH YOU TO CONTACT THE NRC, AND MR. ZORN IN
PARTICULAR, IN SUPPORT OF GAP'S PETITION AND TO TAKE
ANY ACTION YOU CAN TO INFLUENCE THE NRC TO RESPOND
FAVORABLY.

Yrs. truly,

Robert Rashkin

end.

Wanda W. Zick, Jr. Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Zick:

The Government Accountability Project has a petition before the NRC, requesting that the NRC send a new inspection team to investigate the South Texas Nuclear Project.

I very strongly support this petition and I urge you to send an independent investigative team. Independent meaning independent of Victor Stello and the other Region 14 NRC inspectors. Mr. Stello and the inspectors have been the center of much controversy in the past. I am sending copies of this request to my representatives in Congress.

Thank you for your help in this matter.

Sincerely,

Antoine Adams

JUL 14 1987

Dear Senator Bentsen:

Please find enclosed a copy of a letter I wrote to Mr. Lando Zach, Chairman of the Nuclear Regulatory Commission. I am requesting your assistance. Please call or write the NRC to ask for an independent investigation into the South Texas Nuclear Project. I know your voice will hold a lot of weight in the consideration that the NRC will give to the petition presented by the Government Accountability Project.

I thank you,

Julianne Adams
