Dear Mr. Bram:

SUBJECT: CORRECTED AMENDMENT NO. 135 (TAC 69025)

On August 19, 1988 the Commission issued Amendment No. 135 to Facility Operating License No. DPR-26 for the Indian Point Nuclear Generating Unit No. 2. Through an oversight, this amendment contained a number of administrative errors. These errors are corrected as follows:

1. Letter: A corrected last paragraph was substituted.
2. Technical Specifications pages: A footnote was added.
3. Safety Evaluation: A second paragraph was added under the Introduction on page 1. A corrected Environmental Consideration paragraph was substituted on page 5. Also, a line was added to the Staff Consultations paragraph on page 5.

Enclosed is a copy of a Corrected Amendment. Please substitute this corrected copy of the Amendment for the one issued on August 19, 1988.

Sincerely,

Original signed by

David Langford, Acting Project Manager  
Project Directorate I-1  
Division of Reactor Projects, I/II
