Re: Amendment to License Number **42-13652-01**

I am requesting an amendment to ICO, Inc., dba ICO Tubular Services Radioactive Material License No. **42-13652-01**. This amendment will affect the following:

- Number 1 – Company Name
- Number **11B** – Corporate Radiation Safety Officer
- Number **15** – Add Darrell Wyatt to list of names

Regarding condition number one (1): This amendment will replace the company name from ICO, Inc., dba ICO Tubular Services, Inc., to **ICO Worldwide Inc.**

Regarding condition number eleven B (11B): This amendment will replace the Corporate RSO from Dave Mason to **Darrell Wyatt**. I have enclosed copies of my RSO training certificate and Radiation Safety School courses I have attended.

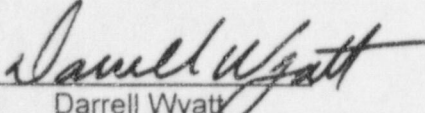

Regarding condition number fifteen (15): This amendment will add **Darrell Wyatt** as one of the persons authorized to remove sealed sources from a pipe wall thickness gauge, or be physically present and supervise the removal of a sealed source from a pipe wall thickness gauge. On April 21, 1998, I assisted Dave Mason with the removal from service of six (6) sealed sources. I went through an orientation of all aspects of removal, storage equipment to be used and safety precautions. This included using a "dummy" source and practicing the motions that are necessary to remove the source and place in a storage container. During the actual removal, I was the secondary person assisting Dave and then I was the primary person actually removing the source. Having gone through the training, I feel confident that I have learned the necessary steps involved to be named on the license as authorized to perform these functions.

My experience with the spinning pipe gage started in 1980 and has been continuous to the present. I am currently an Assistant Vice President of Inventory Management, and for the last 18 years have been involved at various management positions in the pipe inspection field. I am familiar with our in-house Radiation Safety course and feel confident in my ability and knowledge to perform the duties required of the Corporate Radiation Safety Officer for ICO Worldwide Inc.

I have enclosed a check for \$ **350.00** for the required amendment fee.

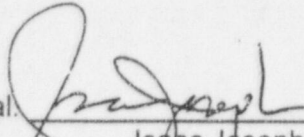

If you should require any further information, please feel free to contact me at 713-844-2094.

Respectfully,

Darrell Wyatt
Assistant VP Inventory Management
Corporate Radiation Safety Officer
