Gentlemen:

This refers to the inspection conducted by Messrs. W. D. Johnson, C. C. Harbuck, and E. M. Hunnicutt of this office during the period January 1-31, 1986, of activities authorized by NRC Operating Licenses DPR-51 and NPF-6 for Arkansas Nuclear One, Units 1 and 2, and to the discussion of our findings with Mr. J. M. Levine, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included operational safety verification, maintenance, surveillance, followup on a previously identified item, followup on a licensee event report, seismic pipe support review, condensate storage tank construction, and followup on Three Mile Island Action Plan requirements. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
