Docket No. 030-22218  
License No. 46-23463-01

Attention: Beth Riedlinger

It is hereby requested that the Pacific Marine Environmental Laboratory Radiation Safety Manual be amended to change the frequency of required radiation surveys.

Section III (B) on page 7 requires weekly surveys as a minimum. The modified text would read "The frequency of the surveys shall be at the beginning and end of each day during which radioactive materials were used."

Sincerely,

*James Gendron*

James Gendron  
Radiation Safety Officer
