Dear Sir:

South Carolina Electric and Gas Company (SCE&G) has reviewed the advanced notice of rulemaking as published in the July 23, 1998 Federal Register. The proposed improvements to current reporting requirements would have a significant and positive impact on the regulatory burden at the V. C. Summer Nuclear Station.

By copy of this letter, our company requests that the NRC staff consider the specific recommendations provided by the Nuclear Energy Institute (NEI) on behalf of the nuclear power industry.

We appreciate the opportunity to comment on this proposed rule. Should there be any questions, please contact Ms. April Rice, Manager, Nuclear Licensing and Operating Experience, at (803) 345-4232.

Very truly yours,

David A. Lavigne
