Dear Mr. Chema:

This is in response to your March 16, 1988 letter concerning our recent meeting and your request to receive notifications of events at the Beaver Valley nuclear power station located in Pennsylvania. I have asked the NRC staff to honor your request, and I understand that Ms. Marie Miller of our Region I office has been in contact with your staff to make the necessary arrangements.

I am pleased to hear that the notifications you have been receiving from Region III for plants in Ohio have been useful. I enjoy our exchanges of ideas and hope to see you again in the near future.

Sincerely,

Lando Zech
